FACTORY

Block No. 316, Paiki 318, West Side, Pipodara, Surat - 394110 (Gujarat)

Rooted in Surat, spinning for the world.

Hami Weavelon Pvt Ltd is a dynamic and fast-growing polyester spun yarn spinning mill headquartered in Surat, Gujarat — India’s textile capital. Established in 2021, the company has rapidly built a reputation for delivering consistent yarn quality, reliable supply, and forward-looking sustainability practices to the domestic and international textile industry.

Strategically located in Surat, we are at the heart of India’s synthetic yarn and fabric ecosystem. Our proximity to weaving clusters, processors, and traders enables us to respond swiftly to market demand while maintaining uncompromising standards in product quality and delivery timelines.

△ OUR PRODUCTS

Hami Weavelon manufactures a focused range of high-quality polyester spun yarn, with a growing emphasis on sustainable recycled alternatives that meet the evolving needs of conscious buyers and global brands.

PRODUCT	KEY APPLICATIONS	HIGHLIGHTS
Poly Spun Siro Yarn	Fine Count Woven Fabrics, Premium Apparel, Dress Material, Home Textiles	Siro-Spun Technology, Superior Lustre, Softness & Fabric Hand-feel
Recycled Poly Spun Yarn	Sustainable Apparel, Eco-labels, Responsible Brands	Sustainable Tomorrow, Lower Carbon Footprints, Premium Finish
Core Spun Yarns	Premium Denim, Sports & Active Wear, Home Textiles	Superior Strength & Durability, Comfort & Breathability, Exceptional Stretch
Recycled Coarse Slub Yarn	Premium Denim, Home Textiles, Sports Wear	Comfort & Breathability, Premium Looks, Higher Strength

▲ MANUFACTURING CAPABILITIES

Our spinning facility in Surat is equipped with modern ring-spinning machinery specialised in Siro spinning technology, optimised for polyester staple fibre (PSF) and recycled fibre. Key capabilities include:

- ▲ Production capacity of 30 metric tonnes per day, enabling large-order fulfilment
- ▲ Siro Compact Spinning technology producing very fine poly spun Siro yarn with superior two-strand structure, evenness, and fabric hand-feel with the lowest hairiness possible
- ▲ Ring-spinning platform delivering consistent tenacity, lustre, and lot-to-lot quality across fine counts
- ▲ Wide count range — from coarse slub to fine count Siro yarns — catering to premium woven fabrics, dress materials, and high-end apparel
- ▲ In-house quality control with inter-yarn and lot-to-lot consistency checks
- ▲ Efficient logistics connectivity within Surat's textile hub

▲ SUSTAINABILITY & COMPLIANCE

Sustainability is embedded at the core of Hami Weavelon's business model. As India's textile industry faces mounting pressure from global brands and end-consumers to adopt eco-responsible sourcing, we are proactively positioning ourselves to meet these expectations.

- ▲ GRS (V4.0) & RCS (V2.0) certified by Control Union, enabling buyers to substantiate recycled content claims — Scope Certificate No. CU1439015MUL-2026-00031905
- ▲ Aligned with BIS/QCO norms governing polyester staple fibre and yarn quality in India
- ▲ Committed to reducing water, energy, and chemical intensity per kilogram of yarn produced

WHY CHOOSE HAMI WEAVELON

Surat Advantage

Located within India's largest synthetic textile cluster — unmatched raw material access and market connectivity.

Agile Supply

30 MT/day capacity with flexible scheduling for spot and contract orders across pan-India buyers.

Sustainability Ready

GRS & RCS certified Recycled yarn range — future-proofing your supply chain against green compliance requirements.

Consistent Quality

Lot-to-lot quality discipline with technical expertise in PSF and Recycled spinning for superior downstream performance.

Trade-Focused Team

Led by an experienced Sales & Marketing team with deep presence at national trade events including Bharat Tex.

Every count we spin – 2026
